Tarek Yosry

FULL STACK WEB DEVELOPER
tarekyosry8@gmail.com | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

SUMMARY

Dedicated Full-stack developer and WordPress developer looking to pursue a successful career in software development to build innovative and cutting-edge business solutions. Throughout my two years of developing more than 20 WordPress websites, I've been learning web development with Microverse and have gained extensive knowledge in React.js and Ruby on Rails. These remote projects and pair programming improved my communication and problem-solving abilities.

SKILLS

Front-End: React.js, Redux, JavaScript, Bootstrap, Elementor, CSS
Back-End: Ruby, Ruby on Rails
Databases: PostgreSQL, MySql
SEO: On-site optimization, Improving SEO score
Tools & Methods: Git, GitHub, Mobile/Responsive Development, Chrome Dev Tools
Soft skills: Time Management, Problem-solving, Pair programming, Attention to detail, and Remote working
Other skills: WordPress, API, Object-oriented programming, GitHub, Git, Debugging, Unit testing

EXPERIENCE

HIGHLIGHTED PERSONAL PROJECTS   Remote
Full Stack Web Developer   May 2022 – Present

Pet store — An application where you can create an account and add a category with some details like the name of the category and an icon for its image, for each type you can add an item to it with the name of the item and its price. The app will automatically calculate the sum of the items for each category.
- Built with: (Ruby on Rails and PostgreSQL).
- Live link: [Demo](#)
- GitHub Repository: [GitHub](#)

Math magicians — In this project, I have built a calculator that does the mathematical equations and displays the result in its own space.
- Built with: (JavaScript, React, and Netlify).
- Live Link: [Demo](#)
- GitHub Repository: [GitHub](#)

Microverse   Remote
Mentorship of junior developers   August 2022 – Present

Assisted newly hired developers to learn more about Microverse by introducing them to new tools like Git, Github, and VScode, as well as other things like talking about any roadblocks and open discussions.
- Scheduled weekly meetings to talk about any obstacles.
- Assisted three students with their projects by debugging and teaching them how to search effectively.

Hibrew   Dubai, United Arab Emirates
WordPress developer   October 2022 – December 2022
Designed and developed an E-commerce store, selling coffee makers in Dubai. The store divides products into 4 categories. The user can select a certain product and add it to the cart. Shipping and taxes are calculated automatically.
- Built with: (Elementor, Woocommerce, Astra).
- The website is fully responsive and fast.
- The store is SEO-friendly, with a score over 80%.
- Live link: [Demo](#)

AIP Academy   Cairo, Egypt
WordPress developer   July 2022 – August 2022

Designed and developed a WordPress-powered website offering forex education. Users can register and purchase the required bundle. The lessons are displayed on a dashboard on the website.
- Built with: (Elementor, Tutor LMS).
- Added more than 70 lessons, teaching forex trading techniques to people all over the world.
- Live link: [Demo](#)

Positive Ads Management   Melbourne, Australia
WordPress developer and on-site SEO specialist   February 2020 – August 2021
- Created more than 15 WordPress websites for both our business and our clients.
- Improved 2 websites' rank on the first page of Google Australia for specific keywords in 2 months.

EDUCATION

MICROVERSE   May 2022 – Present
Remote Full Stack Web Development Program, Full Time
- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed new skills in remote pair programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers.
-

MTI (Modern Technology Institute)   October 2016 – August 2020
Bachelor's Degree, Business Administration (Finance)
- The thesis was talking about the impact of bad loans on banks was the topic of my thesis study. This project taught me how to do research and organize the data well. Since the group had 5 members, I had to distribute the tasks and make sure that we met the deadline.
